GRINDLE'S
ANCIENT AND CELEBRATED

JAPANESE LIFE PILLS
NATURE'S OWN REMEDY.
A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.
FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying drugs made into pills and liquid medicines, and palmed upon the world without knowing their injurious effects upon their system. This *victorious evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have studied hard to find a cathartic which, while it purged, would *throw out disease*, and not *more secretions*; also, would *remove and strengthen*, and not *weaken and broaken the system*.
We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually the *vehicle out of disease* and not more *secretions*, thoroughly purifying the blood and *immediately* strengthening the system—has been found. They will not only relieve but positively cure every disease for which they are recommended. The Life Pills have stood the test of the ancient Japanese Family for centuries, and the same kind of ingredients that compose the Pills at that ancient time are continued to the present day.
No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time; hence the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing. The number of these PILLS being used by females alone, for their various complaints, constitutes in itself an immense trade. They are not the "*female pills*" so much puffed into public notice, which, instead of curing, often produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on *diseases*.
The Pills are sent by mail, from the Proprietor, for $1, on receipt of the price. The postage to all parts of the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps, and will be responsible for all money sent us by mail.
J. S. INGRAHAM and F. BRADBURY & CO., agents for Bangor, Me.
For sale by respectable druggists and dealers in medicine throughout the United States, Canadas, Mexico, South America, &c., at, 25 cts a box, or five boxes for $1.
JOSIAH S. GRINDLE, New York, Sole Proprietor, to whom all letters must be addressed. Also, Proprietor of *Dr. Wesley Grindle's Magic Compound*, the great remedy for PULMONARY CONSUMPTION, &c.

American Safety Paper
Manufacturing Company of N. Y.
Capital $500,000.
A. NICHOLAS, President. Office, 79 Wall-st.
A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Autotatic Counterfeits, Treasures, Erasures or Alterations.
HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GENNY, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint; Mr. Lymon of the New York Clearing House; Messrs. Meade Brothers, extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:
Bank Checks—35 cts. per lb.
Bank Bills—$18 per 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stock—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.
For Indentures and Agreements, 40 cts. a lb.
All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.
For Southern climates it is excellent, and much superior to any other; and the moisture of the climate does not destroy it,—that properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on this Safety paper, while the old and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is a sure proof against moths, and other vermin, which feast on and destroy all other paper now in use.
The Company have now in operation a Mills in Morris County, N. J., of about 50 horse power, and are able to fill all orders for Paper at the shortest notice.
All orders for the Paper must be addressed to A. NICHOLAS, *Pre* ident of the Company, No. 79 Wall street, New York.

ANTAGONISTIC
To Prejudice and Empiricism!
OLD DR. CULVERWELL'S
Member of the Royal College of Surgeons (1826,) License of the Hall (1844,) and 28 years
Medical Reform Act.
Radical Regenerator,
FOR SEMINAL WEAKNESS,
Involuntary Seminal Emissions, Nocturnal and Diurnal Losses, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from self-indulgence.
This excellent Remedy, discovered by the world renowned Dr. Culverwell, in London, the most successful practitioner in his line for the last 25 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at long last supersede all other nauseous and medical, fear or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked unless its superiority over every means hitherto employed for the same purpose, not a *peradventure*, but that it's employment by one person would, through recommendation, result in an eventual sale to many.
Dr. Culverwell's admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, as by it we own every facility will be afforded for testing its wonderful efficacy in their private practices.
Full and plain directions for the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-HOMMES, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded by *mail*, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 168 Grand-St., New York, Sole Agents for the United States and Canada.

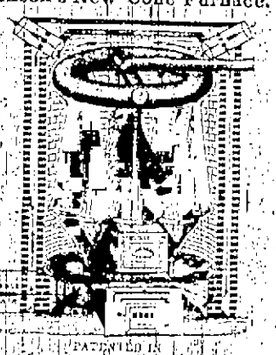
Chilson's New Cone Furnace.



PATENTED IN
America, England and France.
THE thorough and highly satisfactory trial of a large number of
CONE FURNACES,
in use during the last cold winter, has proved it an invaluable invention, which far surpasses all others known for perfectly heating a house. The manner of keeping back blowers and gases in the chaser of the cone (or tapering radiator) near the fire, by which the formerly wasted heat now imparts all its warmth to the cone, is entirely new and peculiar to my Furnace, and is the only means by which the combustion of coal can be completely consumed. This improvement is the true economy of fuel, and great *desideratum* never combined with any kind of stove or furnace before. Anthracite coal burns freely in this Furnace, and produces a strong, steady heat, without clinkering the grate bars, and is entirely free from gas. Wood also burns to the best advantage in this Furnace. I have received the highest recommendations from all who have used it, and I *challenge the production of any Furnace in the market* which will compare with it in any respect. Such testimony, I received the First Premium, and Diploma at the Mechanics' Fair held in Boston, in 1856, and also at the Massachusetts Charitable Mechanic Association's Fair, held in Boston, in 1857. I also exhibited a Furnace in operation at the Fair of the American Institute, New York, in 1856, where it received the First Premium, and Diploma, and also at the Fair of the Maine Charitable Mechanic Association, held in Portland, in 1857, where it received the First Premium, and Diploma. I can refer to all such persons as have purchased my Furnaces, and to Messrs. Wm. Gragg, Cooking Ranges, Manteis, Grates, Ranges, Bangor, Me., who have sold and continue to give personal attention to erecting Furnaces in Bangor, and the ventilation of buildings in every part of the country.

The Horrors of the Domestic Slave Trade.

We copy from Mr. Weston's vigorous and philosophical work on the "Progress of Slavery," the following notice, of the Slave-trade in the Southern States. While the foreign slave trade is denounced by a law of Congress as piracy, and was justly characterised by Mr. Jefferson as the "Opprobrium of Infidel Powers," how can a civilized people be indifferent to a commerce similar in kind, but infinitely more cruel and revolting, carried on in their own midst, and not only justified, but fostered and depended upon as a chief source of pecuniary gain by some of the proudest States in the confederacy?

We may continue our extracts hereafter from this very able and well-considered work, which we wish might be put into the hands of every voter in the country. It is *the* book upon this question:

Thus far, the effect of the removal of slaves from old States to new States has been considered upon the supposition that they are removed with all their chattels, without change of ownership and in company with the families with which they have been reared.

This sometimes happens, but in a majority of instances the removal is effected through the instrumentality of the slave trader, and involves all the multiplied and unimaginable horrors of the domestic slave trade; that abominable traffic, which is the disgrace of our age and country, and in comparison with which, the African slave trade, was innocent and merciful. The separation of husbands and wives, parents and children, and of brothers and sisters; the abrupt severance of all the ties which bind human beings to the locality of their birth; the transfer, to new masters, strange climates, and, it may be, vast distances, exercises upon the auction block and the accompanying inevitably upon the opening of new regions to slavery. The victims are not heathen savages as they were in the foreign slave trade, but those who are, to a greater or less extent, christianized and civilized, and in whom sensibility to moral suffering is cultivated and active. If the kidnapped native of Africa may sometimes find his condition improved in the hands of new masters; humanity can delude itself with no such hopeful inference to the negroes of our northern slave States, who are carried daily in the coffle-gang of the slave trader, to wear out an existence in what is to them for distant world, rendered doubly wretched by its contrast with their former lot. The whole picture is one of unrelieved misery, without palliation and without possible mitigation.—How often have we had described to us the helpless terror of those slaves which, having been decoyed into some place and position to be conveniently taken possession of by the slave dealer, do so suddenly be-ormed of the fate that awaits them; how often have we had described to us the wailings and utter despair of families, and wife to find a father, a husband, or a son, hurried without warning to a doom, invested, perhaps, in their imaginations, with horrors greater than even the reality. How often have we had described to us the pangs of these separations, softened by no solace, falling sudden and irresistible, like the thunder-bolts of Heaven, and eternal as the grave. And yet what is in so few instances described at all, and never described accurately, because language, which is an invention of man, is far short of the pathos of nature; occurs to this country upon a vast scale, and continuously, with the tacit connivance of the nation, and while plenary power is given to Congress by the Constitution, for the express purpose of putting an end to it, slumbers on unused.

Messrs. Wheeler & Lynde:—Living as I do in the back settlement of this rural and agricultural town of Hornby, and being out of the way of reading matter, except such as comes to me in my daily papers, I have been greatly interested in the able and timely financial articles in the Union. Probably there is no one now living, who is as competent to treat upon this most important subject, and at this particular juncture, as is the venerable editor of that paper.

The present generation, as well as those who are to come after us, can never repay him for his timely labors for our and their good. Historically, he far surpasses Cicero; and his *education*, is second only to Demosthenes. He comprehends at a glance the whole subject of finance, from the beginning to the end, and elucidates it in a masterly manner. In short, he is an Alexander on finance, yea, more a perfect Solomon-ater.

Such being the fact, we, out here in the country, think it entirely unnecessary that the able and ready pen of a "merchant" should come to his aid. But we rejoice that it is so, inasmuch as he has watched their operations for thirty years.

By the way—this able conductor of his, the venerable "merchant" of thirty years' standing, if common report out here can be relied upon, has, in years past, "used up" one or two of these terrible monsters, and it is perfectly notorious, I am told, that his bark has ever since been heard, whenever these awful institutions have come to the conclusion, that for the time being, they had enough of his paper. However this may be, the *democracy* of this town are perfectly jubilant that this great matter of finance is now about to be settled. And so long as the Union continues to put it to the "bugaars," Hornby will be found in the front rank in his support.

The committee would recommend a Diploma to G. C. Waterman of Litchfield, for an Essay on the improvement of rough hill pastures not easily cultivated. Also to Ephraim Maxham of Waterville, for an Essay on the intellectual wants of farmers and most practical mode of supplying those wants.

ORDINATION.—On Sunday Nov. 1st Rev. H. C. Dugan was ordained as pastor of the Christian Society in Lubec.

The following officers were elected by the Pemperke Division, S. of T., on the last Saturday in September:—

Colin Campbell, W. P., John McKay, W. A., T. L. Hersey, R. S., R. A. Campbell, A. R. S., H. C. Wentworth, F. S., Eben Russell, T., John Campbell, C., Alexander Cameron, A. C., William Pomeroy, I. S., P. A. Hatton, O. S.

We understand that this society is in a flourishing condition. About thirty individuals have joined the order within the last six months. They have a fund amounting to about $400.

U. S. COURT, PORTLAND. The Court assigned for the second Tuesday of Jan. next as the day for the trial of Abraham Cox and Peter Williams, arraigned for murdering the officers of the Alder Cooper.

DEMARIN. Schr. Gov. Aitken, of and from this port for Sandwich, struck on Gunding Lar, Yarmouth, 2d inst, and then went ashore on Dennis Beach. She was got off the 3d and proceeded.

HON. NEAL DOW arrived at his home in Portland, on Friday evening, on his return from England. He was escorted from the cars by a large procession of his friends, with torch lights and music.

A public reception has been tendered to Mr Dow, by the citizens of Boston, and accepted. It will take place on the 19th inst. Extensive arrangements are in progress—distinguished men from all parts of the United States being invited.

A meteor of extraordinary brilliancy appeared in our western sky about six o'clock last evening. For a few moments the air was lighted up as by a conflagration. The direction of the meteor was from north-east to south-west. November it may be remembered is the month for star showers.—*Eastport Sentinel.*

Hon. Mark H. Dunnell, the efficient Superintendent of Common Schools, has completed the round of Teacher's Institutes, with the most complete success. The aggregate attendance upon these Institutes has been 2017 Teachers, and the interest has been greater than ever before. Nearly every Institute has passed resolutions in favor of a State Normal School.

Rev. William P. Merrill, who was stabbed in Biddeford, on Thursday evening, is a Free will Baptist clergyman, and has recently received an invitation to become pastor of the Casco street church, in Portland. The Saco Union understands that a man he received a note recently, threatening his life if he did not leave town, and states that "he is an unflinching opponent of the rum traffic." We learn that Mr. Merrill is not seriously injured.

DE WITT HOUSE.—We understand that Mr. E. T. Cram, formerly of the Saco House, but more recently of the Western Exchange Hotel, Portland, has leased the De Witt House, and taken possession.—*Lewiston Journal.*

FUNNY.—The following appears upon the Clerk's record in New Sharon, Franklin county. "Voted, That the March meeting be in April."

The Lewiston Journal says that the Central Block in that city is nearly ready for the roof which will be put on next week. There is to be a fine Hall in the upper part of the Block. It will not probably be finished until next year.

WALDOBORO'.—We understand that the fire engine and apparatus belonging to this ancient Straight Whig town, was lately taken on execution and sold to a private company. Waldoboro' must be a flourish ng town with a spunkey set of town officers

We are told that Hon. Edward O'Brien, President of the Georges, Bank, Thomaston, has sufficient exchange on Baring Brothers, Liverpool, to redeem over note that bank has in circulation.

FIREMEN'S PARADE.—There was a firemen's parade and trial of engines at Thomaston, Wednesday afternoon Nov. 4th. The occasion of this parade was the dedication, by Eureka, No. 4, of Thomaston, of a fine new Hall, which was celebrated by a Dedication Ball.

The trial of engines took place during the afternoon, and was by horizontal playing, through 200 feet of leading hose, the distance being marked in the usual manner. The following was the result of the trial:

Defiance, Rockland, Hunneman,	207 ft.
State of Maine, Thomaston,	206 ft.
Eureka, Thomaston, Button,	181 ft.
Dirigo, Rockland, Hunneman,	189 ft.

We are informed that the judges also decided that "Dirigo," and "Eureka" played the *largest volume of water* upon the paper.

Launched on Monday last from the yard of Dyer P. Jordan, Esq., a fine brig of 346 tons burthan, called the Oriolan, and to be commanded by Capt. Charles Lord.—*Ellsworth American.*

FRUIT THIEVES.—A farmer in Piscataquis county, lost eight or ten bushels of choice apples from his orchard one night last week.—He tracked the rascals by means of a peculiar shoe on their horse's foot, and after following them a dozen or fifteen miles, caught them, and recovered his fruit and satisfaction. While he was obtaining the warrant for the arrest one of the thieves was present, and when he found the horse in the pasture every shoe had been removed.

A shower, attended with heavy thunder and vivid lightning, passed over Ellsworth Monday evening.

Launched, from the yard of Master Cephas Starrett, 3d inst., a fine barque of 450 tons, named "Cephas Starrett," to be commanded by Capt. George Gregory. She is principally owned by Capt. Gregory and the master-builder.—*Rockland Gazette.*

CUBA.—The Eastern stage, when it had reached near Cherryfield a few days since, on account of the badness of the road, stopped for some of the passengers to "foot it" up a hill. One of the passengers, a young lad, saw a cub backing down a tree which was by the side of the road. He ran and told a fellow passenger, who returned to the spot, and captured another one, the first seen cub having made his escape. It was "taken in" as a fellow passenger and carried to Cherryfield.—*Ellsworth American.*

We acknowledge the receipt of a beet and a parsnip from Mr. Robert Cutts, of Milo. The beet is two feet long, and the parsnip three. Who can *beat* this.—*Dover Observer.*

Capt. James K. Means, of Bluehill, master of Barque Ocean Home, died in Hamburg, of cholera, Oct. 6th.

TALL STOCKING.—Capt. Robinson of Gouldsboro', and his two sons, in one afternoon killed 42 sea fowls of various kinds, in the vicinity of the Black Ledges, off Prospect harbor.

The editor of the Eastport Sentinel has a cabbage head which weighs 24½ lbs. It is his own head, it having been presented to him by Mr. U. S. Trost.

Some graceless scamps have been poisoning cows in the town of Lubec.

PERSONAL.—Dr. W. H. Brown passed through Boston last week on his way to St. Louis, where he intends to spend the winter to escape the inclemency of the approaching season here, which has heretofore proved too severe for him. We regret that a physician, of so excellent attainments and great usefulness should be obliged to leave us for any portion of the year, and the warmest wishes of a host of friends go with him. Dr. Jones, an accomplished physician, who has recently located among us, has the confidence of Dr. Brown, and will endeavor to make good his place, in which we wish him the best success.—*Union*

We have been shown by Messrs. Stimson & Bro., Custom House Brokers, No. 11 Wall st., a new and singular material for paper, recently received from London, and passed through the Custom House by them for a gentleman in Boston. The material is the residuum of the Beet root after prosing for syrup, and the present is the first parcel that has been imported into the United States! So says a New York paper.

The U.S. frigate Independence has reached San Francisco, and is said to be laid up there. Her men will return by steamer.

It is reported that the hitherto fashionable ladies of Hartford, Conn, have resolved themselves into a society for retrenchment. They propose to discard silks and satins for a while, and on the principal that "charity begins at home," will wear only such goods as are made in home mills, hoping thus to stimulate employment for needy operatives.

OHIO.—The official majority for Chase, the Republican candidate for Governor of Ohio, will be 1684. All the amendments proposed to the State Constitution have been adopted by enormous majorities. They provide for single Legislative districts, annual sessions of the Legislature, the equalization of banks and individual taxation, general acts of incorporation etc.

A man named John B. Smith, who was confined in Erie County, (New York) jail, on a charge of stealing cattle in Wyoming county, made his escape last Wednesday night. He dug a hole beneath his cell door and got into the corridor, from whence he forced his way through a wall of solid cemented masonry two feet thick, with no other instrument than the hinge of his bed.

While Mr. Abram Hubbard and his sons were hunting coons in North Guilford, Ct. last week, their dog came upon the track of a strange animal, which proved to be a tiger cat. A gun was snapped three times without effect at the animal, who stood at bay, and showed fight, and he was finally dispatched with an axe. His weight was 33 pounds, length 3 feet 7 inches, height 19 inches.

An old common-sense blacksmith in Alabama, whose good name had been evil spoken of and who was advised to commence a libel suit, remarked that he could draw out a good character on his anvil easier than he could vindicate it in a court of Law.

At a recent trial in Broom County, N. Y., it was decided that a passenger having purchased a railroad ticket from one point to another, had a right to ride on any train he chose—stopping over at any place on the road a day or more at pleasure. The notice "good for this trip only," was of no legal force.

In Stanton, Va., last week, at auction, a negro boy 14 years old was sold at $805; a child 6 years old was sold at $510; and a woman 36 years old at $366.

THE MORNING STAR.—The missionary brig "Morning Star" sailed from Honolulu on the 7th August for a trip among the Islands of Micronesia, and it was expected would be absent seven or eight months. Rev. H. Bingham, Jr., sailed in her. Rev. P. J. Gulick also went, as a delegate of the Hawaiian Missionary society.

MORE CENTRAL AMERICAN TROUBLES. The New York Times thus condenses information received from its Panama correspondent:

"We are informed that an officer in the Costa Rican service, under instructions from his government, has taken possession of the San Juan River, and, having commenced its blockade, to the authorities at Greytown, has refused to allow boats or other Nicaraguan craft to pass up or down. The same officer, who is no other than Col. Cauty, who figured in the Walker war, has also been dispatched to demand of the commandants of San Carlos the custody of that fort, and, in case of refusal, to enforce its surrender. It is alleged, by way of apology for this extraordinary move, that Walker is contemplating another invasion of Nicaragua, and that a Costa Rican army alone if capable of defending that Republic." Making every allowance for the correctness of this supposition, the step last taken by Costa Rica can only be regarded as an open declaration of war. It is clearly a *casus belli*; for she takes violent possession of her neighbor's forts and territory in defiance of that neighbor's protests and remonstrances. We are not informed what measures the actual Government of Nicaragua will adopt to repel this usurpation of its rights; but General Martinez, who has just been elected President, is not the man, if report speaks truth, to submit to Costa Rican aggressions. The next mail from Central America will probably bring us more definite information on this point."

CASE OF THE BARQUE DAVID NICKELS.—The loss of the captain, mate and two seamen, belonging to the barque David Nickels, of Searsport, Me., and the arrival of the vessel at St. Augustine, on the 18th ult., in charge of the second mate, cook and one sailor, has already been announced. Although not an impossible event, the story as related by the second mate is a rather improbable one, and should be thoroughly investigated. It is rather unlikely that Captain Brown would have been harpooning dolphins at 8 o'clock at night, when it must have been dark; but if he fell overboard in the act of doing so, as asserted by the second mate, it is not at all l kely that the mate at that time would have left the ship in charge of the second mate, and gone in search of him. On the contrary, he would have sent the second mate upon that duty, and kept the vessel hove to meantime under his own charge.—Again, the vessel was only 25 miles from the land at the time of the occurrence, which a boat could have reached in four or five hours, and the mate must have known his position and how to steer by the stars to reach it.

It was also in the track of vessels bound northward, and yet nothing is heard from the boat. A pilot's boat also searched in vain for the missing men, the next day. The second mate, as he calls himself, could not tell whether he was north or south of St. Augustine when the captain was lost. The vessel was in ballast from Matanzas, bound to St. Mary's Ga.—*N. Y. Times.*

THE INDIAN MUTINEERS.—The following are extracts from a letter, dated Allahabad, Sept 1:

"General Outram's forces marched in two columns. The first, of 683, left this place yesterday, (6th,) at 1 o'clock. The second also of 680 men, marched with the General at 9 o'clock last night. The advance column it is intended, should reach Cawnpore on the 10th inst, and the General on the 11th of September, and if General Havelock has by this time managed the crossing, the whole force will at once move on to Lucknow, and the place has every chance of being relieved by the 15th or 16th, and even allowing for delays in the crossing, by the 20th. The rivers have fallen wonderfully, the Jumna having gone down 30 feet in a week; this will help the crossing greatly, and enable us to act on the enemy's flank advantageously on the march to Lucknow, which could not be done at the time of the previous advance owing to the whole country being under water. We have information that the Lucknow garrison have provisions to last them until the 20th inst. General Outram has taken on some heavy guns drawn by elephants."

"In another letter it is mentioned that Mr Colvin is prepared to aid a column advancing on Delhi with camels and other carriage as they approach Agra. At Meerut they have also collected carriage to some extent. The 5th and 90th are armed with Enfield rifles."

"In another letter, dated the 20th of August, writer from Allahabad:

"We have sent 400 men this week to Cawnpore by train, (40 miles), and the sick and wounded men of General Havelock's force are now on their way here, and will come in the last forty miles by railway."

It appears from the above extracts that in addition to the columns of Outram's force of 683 and 680—1,363, a detachment of 400 men had preceded him, which would give a total reinforcement of 1,763.

FLOUR, Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to this Mill are all the latest improvements. The Wheat is thoroughly cleansed, before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that Customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in spouts as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From New York.

NEW YORK, Nov. 7.

Money easy and plentier, but rates unchanged; stocks rather active but irregular in price, the advance on stocks for the week ranges from 13 to 15 per cent. There are rumors of the failure of several importing houses; but no names are given. The business at the clearing house for the week ending to-day, foots up $72,277,000 clearing, and the balance paid in coin $6,777,000; the clearings to-day were nearly $11,000,000, and the balance nearly $700,000. At the second board stocks were dull and irregular—Illinois Central bonds 77¾; Michigan Southern 15½; Canton 16½; New York Central 89¾; Erie 14¼; Harlem 7; reading 93.

Meeting of Mechanics.

TRENTON, N. J., Nov. 7.

Pursuant to a call in the papers, a large meeting of the Mechanics and Laboring men assembled; several speeches were made and resolutions passed, strongly urging upon the city authorities to take immediate steps to prevent from 2 to 3000 people from actual starvation. Two large banners were displayed, on which was the following: "We ask not alms, but work, to keep our wives and children from starvation." "Peace and good will is our motto."

From Washington.

WASHINGTON, Nov. 7.

The War Department has just received despatches confirmatory of previous reports, that the Mormons are bent on a resistance of the U. S. troops. The appointments of the army and general preparations are such that no fears are entertained for the result. The administration has received no particulars.

Important despatches relative to events in Central America, or to Costa Rican movements. No matter what other governments may do with regard to these affairs, ours will pursue an independent American policy, without entangling alliances.

PHILADELPHIA, Nov. 7.

This morning legal proceedings were commenced to attach the property of Thos. Allibone, late President of the Pennsylvania Bank, for his liabilities to said bank. The suit is brought by the Directors, who depose that the defendant is indebted to the bank upwards of $100,000. The affidavit then states that he is absconded to a foreign country with the design to defraud his creditors.

MINNESOTA. We have the St. Paul papers to the 31st ult. Gov. Ramsey's majority stood at 880, and was not likely to be overcome, the Pembina was yet to come in, and several new counties would be invested in order to cover possitious majorities for Sibley. We are glad Ramsey has not been voted down, though there were at least 1500 Indian and other illegal votes cast against him, and we begin to see he will not be counted out. *Tribune.*

THE MORMONS.—It is said by the Times correspondent, that "our government does not contemplate any decisive demonstration against the Mormons by the little squad of troops now on their way to Utah." We respectfully ask,—Why send a little squad? The correspondent continues: In the event of any overt act, such as an attack upon the troops, or the forcible ejection of the federal officers, it is understood that the President will recommend to Congress extraordinary measures. The plan suggested is, the employment of several regiments of volunteers from Missouri and California—a force not less than 5000 men.

It was sometime since proposed to organize a new Territory, comprising the western part of Utah, and all of California east of the summit of the Sierra Madre, making the latter the eastern boundary of the State. This would leave the Mormons within a comparatively narrow compass. The project finds favor with the administration, and is likely to be carried out. The Legislature of California signified its assent to the change of boundary.

CASE OF ASTHMA.

The following letter from Hon. Myron Lawrence, of Pickatawny, is valuable testimony in favor of the Oxygenated Bitters:

BRACKENRIDGE, March 16.

Dr. Green—I take great pleasure in informing you of the results of the Oxygenated Bitters you had the kindness to send me. For some twenty years I had suffered with the Asthma. I was compelled to sit up one-third of the night, without being able to lie down, and for the fifteen minutes my sleep was interrupted by violent fits of coughing, and great difficulty in breathing. His attacks came upon our country, I never went to bed in North-ampton, in twenty years, but twice, and then was compelled to get up. Now I lie in bed without difficulty, and sleep refreshingly. I took your medicine according to directions. The violent symptoms immediately abated, and convalescence in the case of the remedy has removed all its cutaneous consequences. The value of such a remedy is unestimable. Respectfully yours,

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and such testimonials of every kind. Some say it is panacea. Of course they assign any thing but its real and philosophical reasons. Inflammatory Rheumatism, Gout, Palsy, Burns, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Poisons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frost-ed Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething Children are not certain cured in from 5 minutes to a few days simply by the inhalation. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

Large Bottles Ten Times the Cheapest.

DO KEEP WELL CORKED.

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

P. K.

A letter from Rev. Charles Hibbard, missionary in Burmah, to his father, Joseph Hibbard, Esq., of this city, has been handed to us for publication, from which we make the following extracts.—*Providence Journal.*

NEWTON, Middlesex, June 6, 1855.

Dear Father—Will you kindly say to Mr. Davis that Mrs. Hibbard and myself, and indeed, I might add all who came out with us, feel very grateful for the box of Pain Killer he gave us when we left our native land for Burmah. I have used it for coughs, colds, violent internal pains, summer complaints, burns, bruises, and for the sting of scorpions with uniform success. The only severe pain of the stomach which Mrs. Hibbard has had in Burmah was instantly relieved by the Pain Killer. We always keep it where we can get our hands on it in the dark, if need be. Although I took Mr. Nesbit's bot when he returned to America, yet it is all gone, but three or four bottles, and that would have been gone long ago had I not refused to part with it. The Karens are beginning are beginning to learn its value, and call for it, but I have to deny them, except in doses, for we could not think of being without it.

DR. SMITH'S SUGAR COATED PILLS

Prepared and put up by the

New York College of Health.

The most celebrated Medicine in the World, *Recommended by the principal Physicians in all four Cities, and by all who become acquainted with their merits throughout the world.*

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR. SMITH'S SUGAR COATED PILLS have saved my life.

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice.

Dr. J. M. STURTEVANT, of Lowville, N. Y., a practical physician, says: "I come for the Sugar Coated Improved Indian Vegetable Pills, as well as a medicine, and use them in my practice."

Dr. McVICAR, of Boonville, Oneida Co., N. Y., says: "Say to your Agents, I consider them an excellent Pill, and use them in my practice."

If the blood becomes impure, it is traced to some of the natural drains of the system, viz: of the bowels—the lungs, kidneys, and skin.—The bile and intestines must relieve themselves of all their worn out particles and poisonous humors, which must go through the channels that nature has designed.

Alpine Hair Balm

FOR

Restoring Gray Hair to its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and give it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and will do no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected the Balm. It is soothing and emollient, always a little of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scur, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be of a natural color. Each Hair has a root in the skin, and is of itself a hollow gray tube, thro' which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

A MEDICINE THAT NEVER DEBILITATES.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, in securing the purpose of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the Liver to a proper performance of its functions.

The Invigorator cures Sick Headache, Take one or two teaspoonfuls at the first attack, and it will soon disappear. For an indigested stomach, or when food rises or sours, take the Invigorator after eating, it will not prove disagreeable or oppressive. *For Heartburn*, Palpitation, or Difficult breathing, take a teaspoonful once or twice daily. *For Loss of Appetite*, Emetics, or Nauseousness, the medicine is invaluable. It will restore the appetite, and the blood digest well. Nightmare, take a teaspoonful on retiring, and the demons of dreamland will be far off. *After fasting*, Acute Indigestion, take a dose of Invigorator, and it will relieve all oppression instantly. The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentary, Piles, Fevers, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public, prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it possesses known merit. To convince a body of this fact, is all that the proprietors claim to be. Any of our readers, or acquaintances suffering from any such diseases as are described in Dr. Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach, and Digestive organs. It came to us with so many testimonials in its favor that we have noted its effects in some of the most severe cases of continued destiny, caused by deranged liver, and in every instance the effect was to relieve or cure a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always feel safe in recommending to others by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the lines of recommendations it has. Our advice is for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it, and we are confident you will be satisfied.

Blessings to the Invalids who use Dr. Sanford's Invigorator, for it will rid you them of their pains as soon as it is taken into their stomach. Pain and misery are driven from the system as it is used, for it will surely drive them away, as they flee with hasten darkness—of this there can be no doubt to those who try it, for the testimonials with every dead inside of the wrapper of the genuine of certificates from those whose lives have been cured by it. Try one bottle—it it does no benefit, then we are mistaken.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the nutrigent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Dr. Wesley Grindle's CELEBRATED MAGIC COMPOUND

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it for building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs; and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what to buy, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither if it is necessary in order to effect a perfect cure. If the treatment be commenced in season, but *little or no portion* of the lung is lost. It is necessary only to *arrest* the ulcer, and when this is done, the corrective substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving perhaps, a little calcareous substance which is quite harmless, and the patient finds herself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung, the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed which enlarges and does its work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature, either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respitory apparatus, true to a law running through the whole physical economy of decrease somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices.—One box $3,00; three boxes, price at one time, $8,00; half dozen, $4,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States, not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

American & Foreign Patents.

R. H. EDDY,
Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, it is through it inventors have advantages for securing patents or ascertaining the patentability of inventions, unsurpassed by, if not unsurpassably superior to, any which can be offered themselves who do. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and his SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY. He would add that he has a sufficient reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

During the time I acted as the Chief of Commissioner of Patents, E. H. Ellsworth, of Boston, did business in the Patent Office, as Solicitor. I practiced with him, and there were no persons who had more success in obtaining patents than Mr. Ellsworth. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they can employ no person more competent and trustworthy, to secure for them a patent, or to attend to any other business appertaining to patents, in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

"From the present Commissioner.

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been actively engaged in the transaction of business with the Office, as Solicitor. I have thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, (which has been received with so much favor, and taken the first premiums wherever exhibited,) has introduced an improvement into the Bee Hive aforesaid, now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.
